## **Introduction**

At Grand Avenue we welcome Appraisal as a process to support the development of all staff to improve teaching and learning, therefore to raise standards. Appraisal procedures apply to all staff employed at Grand Avenue Primary and Nursery School.

The school wishes to encourage a culture in which all staff take responsibility for professional improvement through appropriate development.

We will implement our appraisal arrangements on the basis of;

- Fairness. Being aware of unconscious discrimination and to avoid assumptions about individuals
- Equal opportunity. All staff to be supported and encouraged to achieve their potential through agreeing objectives, undertaking development and having performance assessed.
- Openness. The clarity of the system and individual roles and responsibilities.

## **Purpose**

This policy sets out a clear framework for a consistent assessment of the overall performance of all staff, and for supporting their developmental needs within the context of the school development plan and their own professional needs. The process will be rigorous and moderated.

The policy applies to all staff employed by the school, except those on contracts of less than one term, those undergoing ECT Induction and those who are the subject of capability procedures.

The assessment of a teacher's performance through the appraisal cycle will also be used to make recommendations regarding pay progression.

This policy also sets out the arrangements that will apply if teachers fall below the levels of competence that are expected of them.

## **The Performance Management Cycle - An Overview**

Performance of each member of staff will be formally assessed during an annual appraisal cycle. The cycle will run from September to July each year. The cycle begins in the Autumn Term with a review of the previous year; targets are prepared with objectives agreed. Evidence of performance is gathered (Including observation) throughout the year. A meeting between the appraiser and member of staff is then held during the summer term when progress towards objectives is discussed and a final appraisal review statement created.

Staff on a fixed term contract of less than one year will have their appraisal cycle determined by the length of their contract.

The Governing Body has a strategic role in agreeing the school's appraisal policy, ensuring that performance of staff at Grand Avenue is regularly reviewed and for monitoring the appraisal process.

The Headteacher is responsible for implementing the Appraisal Policy and ensuring that appraisal reviews take place within an annual cycle.

See Appendix A for further details of the cycle.

### **Appointment of Appraisers**

Each member of staff will be assigned a trained appraiser to undertake the appraisal process. The maximum number of reviews any class based appraiser will be expected to undertake per cycle is 5.

If a member of staff feels that the person assigned as their appraiser is unsuitable, for professional reasons, then they may submit a written request to the headteacher for the appraiser to be replaced, stating reasons.

If an appraiser is/will be absent for the majority of the cycle or is unsuitable for professional reasons, the Headteacher may undertake the review or delegate this responsibility to another member of staff.

An appraisal cycle will not begin again in the event of an appraiser being changed.

Should a member of staff join the school partway through a cycle the Headteacher\* shall determine the length of the cycle aiming to bring this cycle in line with the rest of the school as soon as possible.

Should a member of staff transfer to another post within the school part way through a cycle the Headteacher shall determine whether the cycle should begin again and whether to change the reviewer.

\* In the case where the teacher is the Headteacher, the Governing Body will make these decisions.

### **Consistency and Fairness**

The Governing Body is committed to ensuring consistency of treatment and fairness in the operation of appraisal. To ensure this the following provisions are made:

#### ***The Headteacher will-***

- Delegate the appraiser role for some of the staff.
- Moderate appraisal targets and review statements to ensure compliance with the policy

#### ***The Governing Body will-***

- Nominate three Governors to ensure that the Headteacher's appraisal targets are consistent with the school's improvement priorities and complies with the policy
- Nominate Governors ( no less than three) to form a pay committee which will review anonymized appraisal statements in the Autumn term and make pay recommendations based on these to the Resources and Finance committee
- The Pay committee will also consider the recommendation within the Headteacher appraisal review with regard to incremental pay progression based on the Headteacher appraisal review in the Autumn term

## **Appeals**

At specified points in the appraisal process staff and Headteachers have a right of appeal against any of the entries in their targets and review statements.

Within 10 working days of receiving documentation:

- Staff can record their dissatisfaction with aspects of the statements recorded. Where these cannot be resolved with the appraiser they can raise their concerns with the Headteacher. Where the Headteacher is the appraiser the teacher can raise the issue with the Chair of Governors.
- With regards to the Headteacher, dissatisfaction may be recorded on the review statement. If this cannot be resolved with the appointed governors, concerns may be raised with the Chair of Governors. Where the Chair of Governors has been involved in the review process, the Governing Body should appoint a panel of three governors who have not participated in the Headteacher's review, to act as review officers. No governor who is a teacher or staff member will be involved in the appraisal review.

The review officer will investigate the complaint and take account of comments made by the staff member. The review officer will conduct the review of the complaint within 10 working days of referral. S/he may decide that the review should remain unchanged or may add observations of his/her own.

The review officer may decide, with the agreement of the person responsible for carrying out the initial review, or in the Headteacher's case all the appointed governors, to amend the statements or declare that the statements are void and order the process to be repeated. Where a new review is ordered, new governors will be appointed to carry out the review of the Headteacher. For other staff members, the Headteacher will appoint a new appraiser.

Any new objectives, review, or part review, will be agreed and conducted within a further 15 working days.

## **Confidentiality**

The whole appraisal process and the statements generated will be treated with professional confidentiality at all times. The principles and provisions of the Data Protection Act 2018 will be followed at all times.

Members of staff will be informed as to who has requested and who has been granted access to information.

## **Managing Weak Performance**

The appraisal process may identify serious deficiencies in an individual's performance. Where this occurs, the appraisal cycle for that individual will be reviewed, interim targets may be renegotiated and appropriate support for the individual be put in place. Should it be deemed necessary by the Headteacher an informal capability procedure adopted by the Governing Body will be used. For support staff procedures set out in the Pay and Rewards Document will be followed.

Informal capability procedures are as follows;

- The member of staff will no longer be subject to the normal appraisal cycle
- Specific short term targets will be agreed between the member of staff and a line manager
- The line manager will meet with the member of staff frequently to discuss progress towards targets and to offer support

- There is an expectation that targets will be met or that significant progress towards meeting the targets will be made
- Targets will be reviewed at least termly
- If little or no progress is made towards agreed targets then formal capability procedures will be followed ( See RBK policy)

Relevant information from appraisal review statements may be taken into account in making decisions and in advising those responsible for taking decisions, or making recommendations about performance, pay, promotion, dismissal or disciplinary matters.

### **Links between pay, career stages and appraisal (Teaching staff).**

- Induction – the final meeting of the induction period can be used to agree objectives and professional development opportunities as the first stage of the staff's subsequent appraisal cycle.
- Up to the Threshold - teachers can expect an increment if they have met their appraisal targets and performance is satisfactory. Double increments for exceptional performance would need to be justified by review outcomes.
- Staff Development Interviews - will be held at least annually with Senior teachers and will also contribute to the teacher's continuing professional development and to the appraisal process.
- Threshold - teachers who want to move to the upper pay spine should fill out the application form provided by the DfES. Teachers are required to provide written evidence to support their application. This can be taken from the past two years appraisal reviews. Evidence from reviews will be used to inform applications by teachers and assessment by heads.
- Access to Upper Pay Spine 2 - will be agreed following the submission of the relevant form completed to an appropriate standard.
- Performance Pay Points above the threshold and teachers in the leadership group - appraisal reviews will form part of the evidence which schools can use to make decisions about awarding performance pay points to eligible teachers.

Where review statements are used to inform decisions about performance, pay or promotion, to preserve confidentiality and to avoid proliferation of copies of the review statements, they will be tabled at the relevant meeting for reference and collected at its conclusion.

### **Training and Support**

The school's CPD Co-ordinator will be informed of the training and development needs identified on the appraisee's review statement. The Governing Body will endeavour, during budget setting procedures to ensure that appropriate resources are made available to the school for training and support agreed for appraisees. Training and support will be undertaken within the context of the strategic development of school.

An account of the training and development needs of staff will form part of the Headteacher's annual report to Governors about the operation of appraisal within the school. This will include instances where it did not prove possible to provide any agreed CPD.

With regard to the provision of CPD in the case of a limited budget, a decision on relative priority will be taken by the Headteacher. This will include the extent to which the CPD is:

- essential for a reviewee to meet their objectives
- needed to help the school achieve its priorities

Teachers will not be held accountable for failing to meet targets should planned CPD or support not have been provided.

### **Professional Profiles.**

Staff are advised to maintain a Professional Profile using the information to help record continuing development. These profiles should encompass a range of information including;

- Career entry profiles
- Pupil targets and achievements.
- Feedback from classroom observations.
- Feedback from scrutiny of work.
- Comments from parents.
- Recognition of contribution to Borough or School based INSET.
- Details of higher education eg Masters

### **Appointment of Appraisers for the Headteacher**

The Governing Body will be the appraiser for the Headteacher. This responsibility is discharged to three named Governors. Where the Headteacher is of the opinion that any of the Governors appointed to undertake this responsibility are unsuitable for professional reasons, a written request to replace a Governor (stating reasons) may be submitted to the Governing Body.

### **Appointment of School Improvement Partner**

Royal Borough of Kingston Local Authority will appoint a School Improvement Partner for the school, who will provide the Governing Body with support and advice in relation to the management and review of the performance of the Headteacher.

### **Retention of Statements**

Appraisal targets and review statements will be retained for a minimum period of six years.

### **Monitoring and Evaluation**

The Headteacher will provide the Governing Body with a written report on the operation of the appraisal policy annually. The report will not contain any information which would enable any individual to be identified. The report will include;

- The operation of the Appraisal Policy
- The effectiveness of the appraisal procedures
- Teachers' training and development needs

- Any appeals or representations on an individual or collective basis regarding any aspect of the appraisal procedures

The Governing Body is committed to ensuring that the appraisal process is fair and non-discriminatory.

## **Capability Procedures**

This procedure applies only to teachers or headteachers about whose performance there are serious concerns that the appraisal process has been unable to address.

At least five working days' notice will be given of the formal capability meeting. The notification will contain sufficient information about the concerns about performance and their possible consequences to enable the teacher to prepare to answer the case at a formal capability meeting. It will also contain copies of any written evidence; the details of the time and place of the meeting; and will advise the teacher of their right to be accompanied by a companion who may be a colleague, a trade union official, or a trade union representative who has been certified by their union as being competent.

### **Formal capability meeting**

This meeting is intended to establish the facts of the case. For the Headteacher it will be conducted by the Chair of Governors, for teachers it will be conducted by the Headteacher.

The meeting allows the teacher to respond to concerns about their performance and to make any relevant representations. This may provide new information or a different context to the information/evidence already collected.

The person conducting the meeting may decide ;

- that there are insufficient grounds for pursuing the capability issue and that it would be more appropriate to continue to address the remaining concerns through the appraisal process. In such cases, the capability procedure will come to an end.
- to adjourn the meeting *for example if they decide that further investigation is needed, or that more time is needed in which to consider any additional information.*

In other cases, the meeting will continue. During the meeting, or any other meeting which could lead to a formal warning being issued, the person conducting the meeting will:

- identify the professional shortcomings, *for example which of the standards expected of teachers are not being met;*
- give clear guidance on the improved standard of performance needed to ensure that the teacher can be removed from formal capability procedures. *(this may include the setting of new objectives focused on the specific weaknesses that need to be addressed, any success criteria that might be appropriate and the evidence that will be used to assess whether or not the necessary improvement has been made)*
- explain any support that will be available to help the teacher improve their performance.
- set out the timetable for improvement and explain how performance will be monitored and reviewed. The timetable will depend on the circumstances of the individual case but in straightforward cases could be between four and ten weeks.
- warn the teacher formally that failure to improve within the set period could lead to dismissal. In very serious cases, this warning could be a final written warning.

Minutes will be taken of formal meetings and a copy sent to the member of staff. Where a warning is issued, the teacher will be informed in writing of the matters covered in the bullet points above and given information about the timing and handling of the review stage and the procedure and time limits for appealing against the warning.

### **Monitoring and review period following a formal capability meeting**

A performance monitoring and review period will follow the formal capability meeting. Formal monitoring, evaluation, guidance and support will continue during this period. The member of staff will then be invited to a formal review meeting,

If the member of staff was issued a final written warning, they will be invited to a decision meeting.

### **Formal review meeting**

At least five working days notice will be given and the notification will give details of the time and place of the meeting and will advise the teacher of their right to be accompanied by a companion who may be a colleague, a trade union official, or a trade union representative who has been certified by their union as being competent.

If the person conducting the meeting is satisfied that the teacher has made sufficient improvement, the capability procedure will cease and the appraisal process will re-start. In other cases:

- If some progress has been made and there is confidence that more is likely, it may be appropriate to extend the monitoring and review period;
- If no, or insufficient improvement has been made during the monitoring and review period, the teacher will receive a final written warning.

Minutes will be taken of formal meetings and a copy sent to the member of staff. The final written warning will mirror any previous warnings that have been issued. Where a final warning is issued, the member of staff will be informed in writing that failure to achieve an acceptable standard of performance (within the set timescale), may result in dismissal and given information about the handling of the further monitoring and review period and the procedure and time limits for appealing against the final warning. The teacher will be invited to a decision meeting.

### **Decision meeting**

At least five working days notice will be given and the notification will give details of the time and place of the meeting and will advise the teacher of their right to be accompanied by a companion who may be a colleague, a trade union official, or a trade union representative who has been certified by their union as being competent.

If an acceptable standard of performance has been achieved during the further monitoring and review period, the capability procedure will end and the appraisal process will re-start.

If performance remains unsatisfactory, a decision, or recommendation to the Governing Body, will be made that the teacher should be dismissed or required to cease working at the school.<sup>1</sup>

Before the decision to dismiss is made, the school will discuss the matter with the local authority (*N.B. this is not a legal requirement but schools may find it helpful*).

The teacher will be informed as soon as possible of the reasons for the dismissal, the date on which the employment contract will end, the appropriate period of notice and their right of appeal.

## **The Three Stages of Appraisal Cycle**

### **Stage 1 – Planning**

#### **Allocation**

Each Appraiser will be allocated a number of people to appraise. This will be decided by SLT. Once these have been organised, if there are any concerns these need to be discussed with a member of SLT. Time is allocated during staff meetings to support the appraisal process.

#### **Initial meeting**

Appraisers are expected to arrange a meeting with each Appraisee during the Autumn term to discuss targets and actions for the year. This meeting will also focus on

- How well the member of staff has settled into the new school year
- Areas of strength and challenge
- Continued professional development requirements

Each staff member will discuss the agreed three whole school objectives with the appraiser. The objectives will cover pupil progress as well as ways of developing and improving the individual's professional practice. These objectives form part of overall whole school objectives as agreed by the Senior Leadership Team.

The range of targets set will match the nature of the job, including leadership, management areas and/or learning as appropriate. Where a member of staff has a wide range of leadership duties, objectives might focus on specific areas of this work.

The appraisee will record the agreed targets and corresponding actions on a personal action plan, which will apply for the review period. Where a joint determination cannot be made the appraiser will make the determination.

Targets set on the personal action plan will be -

- Rigorous, challenging and achievable.
- time-bound
- Fair and equitable in relation to teachers with similar responsibilities and experience.

The actions will have regard to what can be reasonably expected of any teacher in that position given the desirability of the member of staff being able to achieve a satisfactory balance between the times required discharging professional duties and time to pursue personal interests outside work.

It is acknowledged here that appraisal targets cannot cover the full range of a teacher's responsibilities. Therefore, at review stage, it will be assumed that responsibilities not covered by the objectives will have been carried out satisfactorily. The staff member should record evidence against the teacher standards using appendix proformas.

Appraisal is the responsibility of the person being appraised and the aim is to aid personal development rather than just evaluate performance. Throughout the cycle the appraisee may ask for additional support; this may involve training, coaching, mentoring sessions, observations etc...

### **Stage 2 – Monitoring Progress**

Sufficient classroom observations will be undertaken to make an informed judgment. In some circumstances, where an OFSTED report declares the school either to be in need of special

measures or suffering from serious weaknesses, or in the case of an individual staff member becoming subject to capability procedures, further observations may be necessary. An appraisal observation will take place at least twice during an academic year. Generally one observation during the Autumn term and one during the Spring term.

The observation will have a specific focus and will be at a time agreed by the staff member. Those involved will

- Carry out the role with professionalism integrity and courtesy.
- Evaluate objectively
- Report accurately and fairly
- Respect the confidentiality of the information gained
- Contribute to professional dialogue

The individual will be consulted by the appraiser about the lessons to be observed. The teacher will be informed in good time. Observations undertaken by the head or other members of the leadership team may be used by the appraiser to further assist the process. If the appraiser requires further information, written or oral, relevant to the teacher's performance from other people, the teacher will be consulted before the information is sought.

Where appropriate, observations may not be solely of teaching, but may include delivery of INSET, working with parents, leading meetings etc....and this will be agreed with the appraisee.

A mid year review will be held during the Spring term to discuss the appraisee's progress towards targets set. The personal action plan will be annotated to reflect this discussion.

### **Stage 3 – Reviewing Performance**

There will be an end of year review meeting between the appraisee and the appraiser. The appraisee should bring an updated action plan to this discussion along with evidence to support targets being met. This will be a constructive dialogue. The annotated personal action plan will be used as a focus to discuss achievements and to identify any new developmental needs, including the proposed action, resources available within the school budget, and the support to be provided during the next academic year.

A written review statement will be prepared by the appraiser at the review meeting recording the main points made and the conclusions reached including:

- Identified professional development needs
- Recommended strategies for meeting those identified needs.
- Other developmental issues including those relating to retention and recruitment.
- A review of the job description, in conjunction with the Headteacher
- Progress towards targets set at the beginning of the cycle.
- The staff member's wider contribution to the school
- A clear recommendation by the appraiser as to whether or not the appraisee should be awarded an incremental point (s) on the salary scale directly linked to performance by the teacher in the current appraisal cycle.

If it is not possible to complete the statement at the meeting it will be prepared by the appraiser within 10 working days of the meeting. The teacher will be provided with a copy of the review

statement and may, within 10 working days of first having access to the copy, add to it comments in writing.

Appeals – Either party can meet with the Headteacher or a member of SLT to discuss the appraisal process or present an appeal to the Governing Body.
